Nicolas C. Santos

Fortaleza/CE - Brazil

+55 (85) 9 8500 6624

Portuguese (Native) & English

nicolas.csantos@hotmail.com

github.com/NicolasKernel

Student with practical experience in **desktop and mobile application development**, relational databases, and web technologies. Frequent involvement in **teamwork**, participation in technology events, and presentation of projects to external audiences. Proactive profile, with **high learning capacity**, familiarity with **AI-assisted development**, and focus on delivering functional and efficient solutions. Seeking **IT internship** to apply technical knowledge, evolve professionally, and generate real impact.

Skills

Technical

- Python
- FlutterFlow
- PostgreSQL (modeling and integration with applications)
- JavaScript, HTML, CSS, Node.js
- Web Development
- WordPress
- Back-end ↔ Database Integration
- Software Documentation
- Use of AI in development (Gemini, Claude)

Behavioral

- Teamwork
- Clear and objective communication
- Fast learning

- Organization and documentation
- Proactivity
- Logical thinking and problem-solving

Professional Experience

Academic Projects – Systems Development

Systems Development Technical Course | [Senac] *(Practical experience in team)*

- Developed, in a team, a **desktop application in Python with Kivy**, focused on functionality and ease of use for the user.
- Participated in the **creation of a mobile application** aimed at **increasing sales and improving communication between clients and barbershop owners**, using **FlutterFlow**.
- Integrated **PostgreSQL** into applications, performing data modeling, queries, and connection with systems.
- Applied **software engineering** concepts, code organization, and technical documentation.
- Used **AI (Gemini and Claude)** as support in development, increasing **delivery speed and efficiency in problem-solving**.
- Acted directly in **collaborative work**, task division, and requirement alignment.

Project Presentation in Technology Events

- **Siará Tech Summit & SANA**
 - Presented technological projects at **event stands**, communicating technical solutions to diverse audiences.
 - Developed skills in **communication, argumentation, and product demonstration**.
 - Received direct feedback from visitors, entrepreneurs, and technology professionals.
